Help with Searching the Environmental Resources Public Access Portal

Welcome!

With millions of documents available online, searching for content can often seem intimidating. RER DERM's public records portal has been dramatically simplified to provide an easy and quick method of finding content in a very user friendly interface. In addition, new features such as downloading all documents in a case folder / folio in a few clicks, offer a more sustainable method of fulfilling public records requests.

If you're having difficulty viewing this guide in its entirety or you'd like to download a PDF version, please [click here](#).

Simple Searches

The search wizard, located on the left side of your screen, gives you the option to search on the three most widely most widely used pieces of data, referred to as attributes in RER: **Facility Name**, **Case Number** and **Folio Number**.

Attribute Search

Folio:

Case Number:

Facility Name:

You can enter **all** or **part** of the data you're looking for. Simply enter it in the corresponding box.

Search results appear in the action column on the right side of the screen. To download a document, click the download  icon. To view a document, click the eyeball  icon. Depending on your browser settings the documents may open in a separate window or download to your designated download directory, 25 results are displayed on each page by default.

Description:

Search **Reset**

As in previous examples, you can enter any or all of the search criteria available.

Boxes with an arrow inside them indicate a list of options you can choose from.

You can narrow your results by choosing a specific type of document.

The date of a document can refer to the date in which the document was made active or the date printed on a document.

Filtering Search Results

You can refine your search even further by using the filter option located in the upper right corner of the results pane. After search results are displayed, you can type any value in the filter box to narrow the range of content returned. For example, if you're looking for a specific date, simply type that date into the filter box using the format mm-dd-yyyy. Since the filter box covers all attributes, you can type a part of an address, case number, a zip code or even a document type.

Sorting and Arranging Search Results

Search results can be sorted simply by clicking the arrows ↕ next to the header name of the table.

In the example below, The arrows next to Folio were clicked, and this sorted all the results based on the Folio number by ascending order.

Download All Available Case Folder / Folio Documents

You can download the available contents of a case folder / folio in a few simple steps. Please note folders may not contain the same amount of records as the physical file due to Homeland Security restrictions, protected class or other sensitive information. For additional information contact the Environmental Resources Records Management Section.

Note: Only a maximum of 25 documents will be allowed to be downloaded as Zip File at a time.

Attribute Search

Folio:

Case Number:

Facility Name:

To download an entire case number or documents in a folio, enter the **full case or folio number** in the attribute search pane.

When the results of the search are displayed, verify the information is correct and doesn't include other case numbers / folios you did not wish to download.

Select or De-Select the Checkbox in the header table to select all the records you wish to Zip & Download. You can narrow down the documents you wish to Zip & Download by Selecting or De-Selecting specific Records. When you have Selected at least one record, the Zip & Download button will be enabled, which means you can now perform this action.

[Zip & Download](#)

Your documents will be compressed into a single zip file and prepared for download. Be patient as **this may take some time to complete**. Depending on your browser or computer configuration you will be prompted to download a file or the file may download in the background.

DERM Permit / Workgroup Type Reference

Case numbers are often prefixed with the following abbreviations indicating the type of permit and or the workgroup involved. These abbreviations may also be referenced in content viewed on this site.

AP	Air Emissions
----	---------------

APCF	Stratospheric Ozone Protection
APVR	Vapor Recovery System Permit
ARP	Airports and Contracts
ASB	Asbestos
AW	Agricultural Waste
CANAL ROW	Canal Right Way
CAP	Construction Air Permit
CF	Cut and Fill
CLI	Coastal Permits - Class I
CLII	Drainage Construction - Outfalls
CLIII	Canal Construction
CLIV	Wetlands Permits - Class IV
CLVI	Drainage - Non-Residential
COM	Complaints
DWO	Domestic Wastewater Operating Permits
EC	Elevation
ENC	Environmental Contracts
ERP	Environmental Resource Permit
EQCB	Environmental Quality Control Board
GDO	Grease Discharge Operating Permit
HWR	Hazardous Waste Remediation
IW	Industrial Waste
IW5	Industrial Waste Small Quantity Generators
IW6	Septic Tanks in Wellfields
IWP	Industrial Waste Pretreatment
LW	Liquid Waste Transporters
MOP	Marine Facilities Operating Permits
MSP	Multiple Source Permits
NFC	Natural Forest Community

NORC	Notice of Required Connection
PSO	Pump Station - Private
PSU	Pump Station - Utility
PWO	Public Water Operating
SEWER EXT	Sewer Extension
SW	Solid Waste Facilities
TREE	Tree Permits
UT	Underground Tanks
WC	Water Control
ZONING	Environmental Quality Control Board – Zoning Related
